

# GUESS THE WORD/KEY TERM

**Want to make the game more challenging??**

## Ways to get BONUS points on each round:

If the team member successfully guesses the word/phrase in the time limit – challenge them further! See if they can grab hold of extra points for their team per round!

1. Tell them to elaborate and explain a key fact about each word/phrase for an extra 2 points. (Points at judges/teacher's discretion depending on fact explained)
2. Shorten the time limit to make it challenging for higher ability students
3. In the hat containing the key words from the word bank, have a few written in red. If a team selects this one, give that team only 1 minute to describe the word and for their selected member to guess it.
4. Once the word has been guessed, get the team member to ask a question related to that word back to the rest of their team. If correct → 2 additional points. If wrong, -1 point.
